

Orangeville Ranges

Location: Orangeville

Acreage: 108 Acres

Price: \$885,000.00

The Farm has two licensed and inspected shooting ranges (50 metre and 300 metre). The 50 metre range has 6 position firing points; whereas, the 300 metre range has 4 different firing points. The 50 metre range is lighted at 25 m and 50 metre points. The ranges are baffled and offer covered firing stations. Noise attenuating material was incorporated into the design of the 300 m range. Approval for such facilities is getting harder and harder to obtain. A true privilege to own for the shooting sports enthusiast!

Large spring-fed pond with moored swimming raft and beach area

108 acres with views of the hills of Mono. Long maple-lined drive leads to a century home with renovated kitchen and master bedroom addition.

Federally registered airfield with lighted 2000' foot landing strip and 2 hangars. The field can handle most amphibious planes, single engine aircraft as well as light twin engine planes.

Extra acreage currently farmed. What a package!

The Property

It is hard to imagine one property offering so many options to an owner. Private airstrip, lovely century home with attached garage and studio, shooting ranges, hiking trails, farmland, and woodlands. The property encompasses 108 acres and has lovely views over the hills of Mono.

The Home

Fully refurbished in 1990/91, the original century home has been updated with a large board and batten addition and garages. The Main drive from the west is lined with established maple trees which have produced maple syrup for the owners over the years. The East drive winds through the entire length of the property and accesses the paved County Road 11. The East drive passes the swimming pond, shooting ranges, woodlands and the airfield.

Kitchen

The Large country Kitchen with southern exposure is open to the Family Room and Breakfast Room.

Basement

On this level is the wine cellar, billiards room, utility room, workshop, and cedar closet.

Billiards Room

Large room with fieldstone fireplace, area for darts and an area to play pool or billiards.

The wine cellar has capacity for approximately 500 bottles.

The Afield and Hangars

Known as Burbank Field (CNN3) the field measures 2000' X 100' with no obstructions at either end

The North Hangar (50X60') with heated workshop and bi-fold door. Concrete floor. 100 amp service.

The South Hangar (60X60') with its drive-thru design can accommodate amphibious aircraft. 16' bi-fold doors at each end of the hangar. 100 amp service.

The runway is fully registered with Transport Canada.

- Fueling station near hangar
- Radio controlled runway lights
- Rotating beacon, lighted wind indicator and Unicom

The Pond

Large spring-fed pond with moored swimming raft and beach area. The pond is approximately 10-14 feet deep and has previously been stocked for fishing. The pond freezes over in most winters and is ideal for skating.
